## **Allowance**

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because part numbers in several of the drawing figures need to be typed instead of handwritten and part labels are needed for the boxes in figure 1. Also part labels need to be spelled out in figure 5. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

## 2. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner notes that none of the prior art of record discloses a method of providing medical testing comprising: providing a central server with medical test software, providing an Internet apparatus for a patient in which the software can be downloaded, providing an impedance sensor for the internet apparatus, uploading test measurement result from the apparatus to the server, selecting a cardiography algorithm at the server, and downloading test results to the internet apparatus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
